

The extraordinary ordinary work.

Designed for farmers, foresters and industrial users who need a tough utility vehicle for hard work in extreme conditions, the user-friendly Kodiak 700 delivers superior performance with outstanding value.

Powered by a high torque 708cc engine - and featuring a compact chassis with a plush seat for day-long riding comfort - this extraordinary worker can carry a 140kg payload plus rider, and tow up to 600kg.

The smooth-running Ultramatic® CVT transmission and 2WD/4WD system (EPS with Diff Lock) make this ATV ideal for towing, and with Electric Power Steering on the EPS model - and more features on the SE model - the Kodiak 700 makes every working day that little bit easier.

- Best value for money utility ATV
- Powerful 708cc DOHC 4-stroke high-torque engine
- Yamaha Ultramatic® CVT automatic transmission
- Mechanical 2WD/4WD (EPS & EPS SE: On-Command®)
- Yamaha Electric Power Steering (EPS model)
- Total 140kg front and rear rack carrying capacity
- 600kg towing capacity and front-mounted winch
- Front discs and sealed wet rear brake
- Independent long-travel suspension
- Maxxis 25-inch tyres, 25x8x12 front; 25x10x12 rear
- Digital instruments (EPS models) and storage
- Central halogen work light (EPS models)

Making every working day better

Yamaha Utility ATVs are built with one goal in mind: easing the workloads of those in tough outdoor environments.

This philosophy is engineered in every detail. Like torque-heavy engines that get you moving when terrain is tricky, or loads are heavy; effort-reducing technologies like automatic transmission and Electric Power Steering; and ergonomic designs which mean you'll still feel comfortable after a long day in the saddle. Plus, they run economically and require low maintenance.

Yamaha Utility ATVs are tireless workhorses - but that's not all they are. When time permits, these vehicles pack the punch to give riders a big dose of fun, too.

708cc DOHC engine

The hard working Kodiak 700 features a powerful large capacity engine that delivers class-leading torque and power. Featuring a double overhead camshaft (DOHC) 4-valve cylinder head, this efficient 708cc liquid-cooled engine produces high levels of smooth and controllable torque, enabling it to take on the toughest of jobs.

Ultramatic® transmission

Equipped with High, Low, Reverse, Neutral and Park modes, Yamaha's industry-leading Ultramatic® automatic transmission is one of the ATV world's most durable and efficient CVT systems. The utility oriented gearing produces excellent low speed pulling power and natural all-wheel engine braking feel, giving added confidence and control on downhills.

Independent suspension, front disc brakes

The Kodiak 700's compact independent double wishbone A-arms and long-travel KYB shocks give high levels of comfort together with good manoeuvrability, and can handle the most extreme terrain. For durable and reliable braking the Kodiak 700 is fitted with front disc brakes and a sealed wet rear brake.

On-Command 2WD/4WD

The Kodiak 700 EPS & EPS SE models are fitted with an easy to operate On-Command® system with 2WD/4WD and 4WD with Diff Lock for full control. The Kodiak 700 has a handlebar mounted mechanical lever for quick and effective switching between 2WD and 4WD, allowing you to choose the right option to suit the terrain and surface conditions.

Carrying capacity and winch

Durable front and rear racks give a high load carrying capacity of 140kg, and the Kodiak 700 can tow 600kg, making it a strong work companion in the farm, factory or forest. The front-mounted WARN ProVantage 2500 winch is standard for Europe, while EPS models come with a 2-inch receiver hitch, making this the ultimate compact utility vehicle.

Electric Power Steering (EPS)

For added comfort and reduced physical effort the Kodiak 700 EPS model is equipped with Electronic Power Steering (EPS) that has been designed to offer the best balance of rider assist and positive feedback. By maintaining light steering and precise handling, this system enhances rider comfort, confidence and control.

Kodiak 700 / EPS / SE

www.yamaha-motor.eu

Engine	Kodiak 700 / EPS / SE
Engine type	Single cylinder, liquid-cooled, 4-stroke, DOHC, 4-valves
Displacement	708cc
Bore x stroke	103.0 mm x 85.0 mm
Compression ratio	10.1 : 1
Lubrication system	Wet sump
Fuel system	Single Mikuni 44 mm
Ignition system	TCI
Starter system	Electric
Transmission system	Yamaha Ultramatic® CVT automatic V-belt
Drive system	STD/EPS: Lever operated 2WD/4WD. EPS SE: On-Command® 2WD, 4WD, 4WD with Diff-lock
Final transmission	Shaft
Chassis	Kodiak 700 / EPS / SE
Front suspension system	Independent double wishbone, 180 mm wheel travel
Rear suspension system	Independent double wishbone, 230 mm wheel travel
Front brake	Dual ventilated hydraulic disc
Rear brake	Multi-disc wet rear brake in rear gearcase
Front tyres	Maxxis MU19 AT25x8-12, steel wheels
Rear tyres	Maxxis MU19, AT25x10-12, steel wheels
Dimensions	Kodiak 700 / EPS / SE
Overall length	2,070 mm
Overall width	1,180 mm
Overall height	1,240 mm
Seat height	860 mm
Wheelbase	1,250 mm
Minimum ground clearance	275 mm
Min. turning radius	3.2 m
Fuel tank capacity	18.0 litres
Oil tank capacity	2.6 litres
Loading limits	Kodiak 700 / EPS / SE
Front rack	50 kg
Rear rack	90 kg
Additional features	Kodiak 700 / EPS / SE
Steering System	Ackermann-type with Electric Power Steering (not for standard version)

The standard Kodiak 700 model does not feature EPS, alloy aluminium wheels, 2-inch receiver hitch, digital multi-function instruments, On-Command® drive and the 3rd work light. Also, this Non-EPS Kodiak is only available in Solid Green, Yamaha Blue and Red Spirit.

The Yamaha Chain of Quality

Yamaha technicians are fully trained and equipped to offer the best service and advice for your Yamaha product. For this reason, Yamaha strongly recommends visiting an official Yamaha dealer for all your service requirements.

Yamaha Genuine Parts & Accessories are especially developed, designed and tested for our Yamaha product range. Yamaha also recommends the use of Yamalube®, our own range of high-tech lubricants - the lifeblood of Yamaha engines. They are developed to carry on working effectively, no matter where you ride.

Besides functional and style accessories, Yamaha offers a range of high quality, innovative riding gear designed to keep you comfortable and protected. An extensive range of casual wear is also available. For more information go to:
